DDA 81-1035 115 MAY 1981

FROM: Special Support Assistant to the DDA SUBJECT: Inspector General's Report on the Office of Medical Services 1. I have been provided excerpts from subject report regarding Recommendation C.2 and Recommendations C.3 and C.4. With regard to the latter, I would appreciate receiving from you the narrative portion of the IG Report which deals with these Recommendations. I have an input to make but I need to have the benefit of the rationale the Inspectors used to develop these Recommendations. 2. In my role as Chairman of the Terrorist Threat Assessment Group, I have been looking into the subject of training related to violence abroad. One of the concerns of the TTAG is that we have unnecessary duplication in the types of training we provide and that this duplication results in extraordinary demands on the part of some individuals which could be lessened if we were to combine some of our training programs. I have looked into the various courses offered by the Agency and I have done a very unsophisticated comparison between these courses and the two-day seminar offered by the Department of State referred to as Coping With Violence Abroad. After making these comparisons, I wrote a memorandum to the Director of Training and Education asking for his views on the subject and I received a response from that office on 11 May. I am attaching, for your information and use, copies	25X
